

GIOBAGNARA

11th EDITION

GIOBAGNARA

A brand that is distinctive for elegantly designed creations that express luxury without ostentation, available in an uncommon and virtually limitless color palette of leathers and suede, and crafted to the highest standards using both traditional know-how and leading-edge technology.

This approach to tradition and modernity led Giorgio Bagnara to experiment: he constantly pushes technical limits in his quest for objects that are both beautiful and relevant, and in doing so relies on the skills of the company's craftspeople. Very quickly, GIOBAGNARA became renowned for its expertise, and its founder became a partner of choice for a large number of interior decorators and yacht and jet designers who called upon his know-how for special commissions.

In 2015, Giorgio Bagnara expanded its leather portfolio with the acquisition of the saddle leather specialist Rabitti 1969.

In 2017 started the collaboration with Stéphane Parmentier appointed as creative director of the Giobagnara brands.

In 2018 the expansion of the portfolio proceeds with the strategic acquisition of Pigment France, historical company with high skills in leather covering and weaving of wicker, rattan and straw.

Today, nearly two decades after its founding, GIOBAGNARA has one of the most comprehensive offers of leather home accessories on the market and is preparing to open a fresh chapter in its history.

**GIORGIO BAGNARA,
FOUNDER AND CEO
OF GIOBAGNARA**

Born into a family renowned for cultivating for three generations the art of living, Giorgio Bagnara became passionate about his calling at a very early age. In the late Nineties, after noticing that leather from the fashion industry was not considered enough as material for home accessories, he founded GIOBAGNARA with the goal of applying it to a complete collection. Along with his wife, Vanessa, he decided to move his design studios and workshops in the old docks of the Port of Genoa where, surrounded by the essence and beauty of that location, the company took a significant step forward.

**STÉPHANE PARMENTIER
CREATIVE DIRECTOR
OF GIOBAGNARA**

The interior architect and designer Stéphane Parmentier began his career working for Karl Lagerfeld before deciding to devote himself to architecture full-time in 2002. Since then, he has created and developed numerous projects for an international clientele attuned to his style of luxurious simplicity. The homes and objects he designs reveal a vision that is deeply anchored in a modern everyday lifestyle. Inspired by classical Greco-Roman antiquity, the beauty of the Puglian landscape, the restraint of the Japanese aesthetic, and a desire to focus on the essential, he cultivates elegant asceticism by associating noble materials with subtly graphic lines.

PHORMA COLLECTION

Phorma is a series of wooden trays with a leather lining in geometric shapes that fit inside each other. Like a game, you can get as many configurations as you wish, always creating different designs. The three-dimensions optical effect is implemented by the edge's contrasting wooden finishes, which can be in natural walnut or wenge stained walnut. Please note that, on the same shape, small valet trays fit into small trays and large valet trays into large trays.

ASPEN SEATING CHART

the plan de table was first developed for use at royal courts as a way to ensure that guests were arranged properly in terms of their ranking and protocol. They are still used today wherever there is a need to put the right people together. Each guest's name is handwritten on a card that is then inserted in its proper place on the chart, allowing to determine the perfect seating arrangement while saving multiple trips around the table
